

DYSON CORP.
MINING DIVISION

PROSPECTING FOR PERFECTION...DYSON CORP. MINING FASTENING SOLUTIONS

Dyson Corp. serves a wide variety of mining customers, producing custom fastener and forging solutions for virtually any mining requirement. Dyson products can be found on a number of mining applications including crushers, ball mills, vertical mills, high vibration applications, grinding equipment and conveyers. Additionally, their roof anchor bolts can be found securing mine tunnels.

Dyson's mining product line includes taper and liner bolts, as well as their patented D-LOC and M-LOC lock and seal nuts. We regularly supply products to gold mines, silver mines, and most frequently, iron ore mines. Dyson is your go-to supplier for mining fastening solutions!

EXPERIENCE

Dyson has extensive experience manufacturing product for all types of mines, most frequently, however:

GOLD MINES, PLATINUM MINES, SILVER MINES, MINERAL MINES, AND IRON ORE MINES.
